WORK EXPERIENCE

MOTOR CRÉDITO, S. A., SAVINGS & CREDIT BANK

05/2024

Software Developer

- Develop and maintain applications with Angular, .NET, MSSQL and GraphQL, continually optimizing and improving to ensure availability and quality.
- Implement services, directives and resolvers with clean and scalable code following best practices.
- Connected applications to RESTful APIs and designed modern interfaces with Bootstrap and Material UI.

CONSULTEC-TI

02/2022 – 03/2024

Senior Software Engineer

- Developed web applications in ReactJS and Angular, and REST APIs with Node.js, Express and C# .NET Core, integrating databases such as MongoDB and SQL Server.
- Implemented TDD and automated testing with Jest, Cypress and xUnit.
- I collaborated in SCRUM environments with Jira, Azure DevOps and Git Flow, applying good practices and clean architectures.

RUBYCOM

05/2016 – 09/2022

Full Stack Developer

- Managed complex product and user requirements to Develop web and mobile applications with React Native, Ionic, Angular, Electron and PHP.
- Implemented databases such as Firebase, PostgreSQL and MySQL.
- Worked with CMS (WordPress, Joomla, PrestaShop), creating custom templates and functionalities with HTML, CSS and JavaScript.
- I integrated payment methods such as Stripe, PayPal and CardNet into E-Commerce.

DIX DIGITAL AGENCY

01/2013 – 05/2016

Frontend Developer

- Created interactive websites, custom modules and templates with PHP, forms and mini-games with HTML, CSS and JavaScript for various clients.
- Implemented real-time dynamic features in CMS like WordPress and Joomla using jQuery and DataTables.
